

***End of Sale Announcement for
Alteon 4408 Platform***

October, 2018

EoS Date: January 31th 2019

To our valued distributors and resellers:

We are proud of the evolution of our Radware products and continue to make improvements to better serve you and your customers.

As a result, Radware has decided to discontinue the sale of the Alteon 4408 line of products.

In order to allow our customers to continue their business in the most effective manner, Radware offers a migration path from 4408-based Alteon application switch to the new Alteon Application Switch 4208 which provide breakthrough performance, advanced application acceleration capabilities, and on demand scalability needed to effectively serve contemporary data-center architectures, applications, and business needs.

The Alteon Application Switch 4208 runs the well-known, proven and latest Alteon OS software.

The customer's existing product knowledge, operations procedures and scripts, integration to their data center environment, network topology considerations, and more, are fully retained when migrating to these new platforms — so that they can immediately enjoy the same renowned ease of operation and stability, while obtaining new and significant benefits.

Recommended Migration Path

The following table lists the recommended Alteon Application Switch platforms for one-to-one product migration:

EoS Platform	Recommended Upgrade Platform
Alteon 4408	Alteon D-4208
Alteon 4408 XL	Alteon D-4208S

- Please contact your account manager for details on Alteon 4408 refresh program.

Effective from the End of Sale date (EoS) January 31th 2019, all currently available Alteon 4408 models will no longer be available for purchase from Radware (including items in Table 1 below, but not only).

The following terms apply to this End of Sale announcement (respectively with the Product Lifecycle as described in the Certainty Support Guide- <https://portals.radware.com/getattachment/f4701032-4022-46d5-a268-e7c4a935aae3/>)
